-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

Applicant's election without traverse of 11/15/04 in the reply filed on 12/08/04 is acknowledged.

***Specification***

The abstract of the disclosure is objected to because the abstract contains undesirable printed E-mail address, "N:\Clients\CARRIER\P00251\PATENT\utility application.doc". Correction is required. See MPEP § 608.01(b).

***Claim Rejections - 35 USC § 112***

Claims 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The indefinite phrase, "different geometry" for claim 3 renders the claim indefinite.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Voorhis (6,199,399). Voorhis discloses a bi-directional refrigerant expansion and metering valve comprising a compressor 16 to first 14 and second 18 heat exchangers; and expansion

device /bi-directional valve 40 connected between the first 14 and second 18 heat exchangers the expansion device 40 including a flow resistance device arranged between first and second fluid passages and in fixed relation thereto, the flow resistance device providing a first fluid resistance with the fluid flowing in a first direction and a second fluid resistance greater than the first resistance with the fluid flowing in a second direction. See Fig. 2A, 2B, 3, 4 and column 3, lines 33-48.

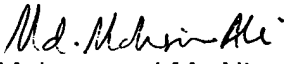

***Allowable Subject Matter***

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad Ali whose telephone number is 703-308-5032. The examiner can normally be reached on Monday to Friday.
